Down To Earth Distributors Inc.
Le Parfait Jar and Gasket Policy
When displaying or storing Le Parfait jars and terrines, do not fit the gaskets onto the lids. Doing so stresses the gaskets and can potentially compromise them. The gaskets are made of synthetic rubber and are not recommended for repeated use when canning.

Down To Earth will not compensate for any such damage to gaskets or jars if not properly displayed or stored.

We suggest you place the gasket inside the jar and leave the accompanying sheet of paper between the lid and jar while displaying or storing the empty jar.
