Free with purchase!

Gardening Guide
Our Complete Gardening Guide is FREE! with your purchase of any Down To Earth Fertilizer, and is packed with detailed information for your customers to read and enjoy! This booklet provides your customers with the knowledge they need to help their gardens flourish using organic methods, and can help your staff answer questions about Down To Earth fertilizers and soil amendments.

Highest Quality Ingredients
Our standing partnerships, specialized manufacturing processes and commitment to honest organics allows us to offer true premium quality products. We take pride in providing effective and environmentally friendly products for plant care and crop fertilization.

For more than 30 years, Down To Earth™ has been carefully formulating fertilizers, soil amendments, potting soils and composts from the best sources of organic nutrients in ideal proportions, without the use of synthetics, growth stimulants, or low quality fillers such as poultry waste. So, whether it’s one of our multi-purpose blends, single ingredient fertilizers, or specialized soil amendments, you can be confident that you are providing your customer’s gardens and the best product available.

Versatility in Application
Our products are used by home gardeners, commercial farms, commercial and community growers, both conventional and organic, who want an eco-friendly alternative to chemical fertilizers and soil amendments. Garden centers who want to appeal to the bio-farming and bio-dynamic crowd will also want to stock these products. They are a perfect fit for the sustainable gardening movement.

Most of our products are currently listed on the OMRI Product List or CDFA Organic Input Material List for California. Please note the OMRI and CDFA logos throughout the catalog that identify which products have been reviewed and determined that they are OMRI compliant. Note: Certified organic operators are encouraged to check with their certifying agent for a final determination of the acceptability of any product before purchase, application and inclusion in their farm plan.

Organic Production
Down To Earth™ utilizes high quality material inputs that meet or exceed the standards set forth by the USDA National Organic Program (NOP) and are approved for use in organic crop production.

Bio-Turf 8-3-5
Bio-Turf™ is a high-nutrient granular lawn fertilizer designed to provide a slow, steady release of nutrients and encourage deep root development to help reduce watering needs. Bio-Turf™ contains natural ingredients which release nutrients over a longer period of time, resulting in a more lush and vibrant lawn.

Ingredients: Feather Meal, Blood Meal, Castor Bean Cake, Potassium Sulfate, Humates, and Kelp Meal

Bio-Fish 7-7-2
A rich, liquid fertilizer ideal for heavy feeders like corn, cole crops and tomatoes. Bio-Fish is loaded with the finest marine based ingredients to improve your soil while nourishing your outdoor plants. An excellent source of Nitrogen and Phosphorus. Bio-Fish can be used throughout the growing season for increased vigorous growth, beautiful blooms and plentiful fruit.

Ingredients: Fish Bone Meal, Fish Meal, Feather Meal, Fish Powder, Sea Kelp, Alfalfa Meal, Humates and Kelp Meal

Citrus Mix 6-3-3
Designed for use on all types of citrus trees in home orchards and containers, our Citrus Mix is formulated with primary and secondary plant nutrients plus micronutrients that promote healthy root growth and abundant green foliage on citrus trees and beautiful fruit. It may also be used to feed other fruit trees, vines and ornamentals for equally enjoyable results.

Ingredients: Feather Meal, Fish Bone Meal, Blood Meal, Calcium Carbonate, Potassium Sulfate, Zinc Sulphate, Humates and Kelp Meal

Fertilizer Blends

• Large Boxes sold by case of 6
• Mini Boxes sold by case of 12

Please note: there may be a difference between the physical box size and what is illustrated on the box and bag packaging for certain fertilizers. (*) Indicates generic (sunflower) packaging for bags.

All Purpose 4-6-2
A garden nourishing fertilizer that is perfect for vegetables, herbs, flowers and ornamentals. All Purpose Mix is also used as a liquid spray for vegetables, herbs and ornamentals. Our All Purpose Mix is also used as a liquid spray for vegetables, herbs and ornamentals. Our All Purpose Mix is well-suited for a variety of transplants. Formulated with top quality organic ingredients and designed to deliver a steady supply of essential nutrients to your plants while enhancing soil fertility and microbial activity naturally.

Ingredients: Fish Bone Meal, Fish Meal, Feather Meal, Alfalfa Meal, Rock Phosphate, Langbeinite, Humates and Kelp Meal

Starter Mix 3-3-3
Our starter and transplant formula is the perfect way to get your delicate young starts and new seedlings in the ground and ready to thrive. In addition to growing your nursery and secondary plant nutrients we’ve added beneficial Mycorrhizal fungi to stimulate rooting, expansive root development and express early growth.

Ingredients: Alfalfa Meal, Fish Bone Meal, Blood Meal, Castor Bean Cake, Potassium Sulfate, Humates and Kelp Meal

Tree & Shrub 4-2-4
Formulated for transplanting bare root trees, shrub, and ornamental shrubs, and container plants, our Tree & Shrub Mix has a generous amount of ending- and essential mineral and trace mineral elements plus humic acids. This slow-release fertilizer is formulated for growing the variety of plant stresses including drought and environmental extremes.

Ingredients: Fish Bone Meal, Blood Meal, Potassium Sulfate, Alfalfa Meal, Rock Phosphate, Langbeinite, Humates and Kelp Meal

Vegetable Garden 4-4-4
Full of powerful plant nutrition to nourish your garden’s growth! Vegetable Garden’s all-purpose fertilizer blend is specially designed for vegetable gardens. Free of any animal products or by-products, Vegan Mix is formulated with plant derived essential nutrients and natural mineral elements plus humic acids. This slow-release fertilizer is designed to continually nourish your vegetables, herbs, ornamentals, garden beds and containers, with an extended release formula that delivers nutrients over a long season.

Ingredients: Fish Bone Meal, Fish Meal, Blood Meal, Alfalfa Meal, Rock Phosphate, Potassium Sulfate, Zinc Sulphate, Humates and Kelp Meal

**AZONITE SR Powder**
Small-release grade of Azoomite is an excellent source of trace elements and natural growth stimulators. It is rich in phosphorus and potassium for promoting vegetative growth and early plant development.

**Blood Meal 12-0-0**
A source of high Nitrogen, Blood Meal also contains a high percentage of organic matter for the development of beneficial bacterial activity of blooms throughout both the quantity and size dramatically increase.

**Feather Meal 12-0-0**
Feather Meal is a great source of slow release Nitrogen that is perfect for small flowering shrubs and especially flowering annuals. It contains high levels of potassium and phosphorus, which are needed for flowering. It is perfect for flowering plants and shrubs. A great source of Potassium and Calcium, Feather Meal also contains a small amount of Nitrogen and is an ideal fertilizer for new garden beds, perennials and bulbs.

**Feather Meal 12-0-0**
Cottonseed Meal is an economical way to fortify and balance your soil. It contains high levels of phosphorus and calcium for strong root development and provides an early season boost for all of your plants.

**Fish Bone Meal 3-16-0**
Fish Bone Meal is a marine based balanced blend of traditional sources. Fish Bone Meal is an excellent source of Nitrogen and Potassium and is recommended for vegetable gardens, flower beds and all types of outdoor plants, trees and shrubs. Fish Bone Meal enhances soil microbial activity, promotes vigorous root development and provides an early season boost for all of your plants.

**Fish Bone Meal 3-16-0**
**Oyster Shell**
At its natural source of high quality Calcium and Phosphorus, Oyster Shell is an excellent source for long-lasting slow release of these valuable plant nutrients. Oyster Shell is an excellent source of high quality Calcium that is ground down fast. It is an excellent source of high quality Calcium and Phosphorus for the development of beneficial bacterial activity of blooms throughout both the quantity and size dramatically increase.

**Gypsum 7-1-2**
Azoomite is an excellent source of trace elements and natural growth stimulators. It is rich in phosphorus and potassium for promoting vegetative growth and early plant development.

**Langbeinite 0-0-22**
Langbeinite is a unique 3-in-1 combination of Potassium, Magnesium and Sulfur. Langbeinite is a naturally occurring source of these three vital plant nutrients. Magnesium is an excellent natural source of Potassium and is ideal for early Spring or Fall application.

**Neem Seed Meal 6-1-2**
Neem Seed Meal is produced during the extraction of oil from the seed of the Neem tree (Azadirachta indica). Neem Seed Meal is an excellent source for long-lasting slow release of these valuable plant nutrients. Neem Seed Meal is an excellent source of high quality Calcium that is ground down fast. It is an excellent source of high quality Calcium and Phosphorus for the development of beneficial bacterial activity of blooms throughout both the quantity and size dramatically increase.

**Oyster Shell**
At its natural source of high quality Calcium and Phosphorus, Oyster Shell is an excellent source for long-lasting slow release of these valuable plant nutrients. Oyster Shell is an excellent source of high quality Calcium that is ground down fast. It is an excellent source of high quality Calcium and Phosphorus for the development of beneficial bacterial activity of blooms throughout both the quantity and size dramatically increase.

**Oyster Shell**
At its natural source of high quality Calcium and Phosphorus, Oyster Shell is an excellent source for long-lasting slow release of these valuable plant nutrients. Oyster Shell is an excellent source of high quality Calcium that is ground down fast. It is an excellent source of high quality Calcium and Phosphorus for the development of beneficial bacterial activity of blooms throughout both the quantity and size dramatically increase.
Our smaller size is great for small spaces and unique endeavors. With 14 varieties of single-ingredient and mixed-blend fertilizers, mini boxes are an economical and convenient option.

**NEW! Solution Grade Minerals**

Check out our new line of high performance solution grade mineral powders that growers can apply with confidence. Designed for efficient delivery and immediate uptake, our solution grade powders can be used in reservoirs, fertigation, drip irrigation or spray applications.

**Calcium 96**

Ultratruly and highly reactive, Calcium 96 is a natural limestone powder that provides immediate availability of this valuable nutrient for plants and microflora. With a high neutralizing value, this solution grade powder can be applied at rates lower than typical Ag lime for fast soil pH correction. This balanced and highly available water-soluble 400 mesh powder can be applied at rates lower than typical Ag lime for fast soil pH correction.

**Potassium Sulfate 0-0-50**

Potassium (K) and sulfur (S) are two of the essential nutrients that plants require to achieve optimum growth and reach their maximum potential. This balanced and highly available water-soluble 200 mesh sulfate powder can be used in reservoirs, fertigation, drip irrigation or spray applications.

**Gypsum**

Calcium (Ca) and sulfur (S) are two of the essential nutrients that plants require to achieve optimum growth and reach their maximum potential. Gypsum offers many advantages for soil management practices in addition to being a valuable resource for plant fertilizer programs. This 350 mesh sulfate powder can be used in reservoirs, fertigation, drip irrigation or spray applications.

**AZOMITE 0-0-0.2**

AZOMITE, the “Rock of Minerals Including Trace Elements,” is a natural trace mineral product mined in central Utah. AZOMITE can improve plant and root system growth, crop yield, quality and safety as well as remineralize nutrient depleted soils. This 450 mesh ultrafine powder can be used in drip irrigation or spray applications.

**Granular Root Growth Enhancer**

- A granular all purpose combination of 11 species of mycorrhizal fungi for inoculating a diverse selection of plants, trees and shrubs
- Easy-to-use granular composition for preparing garden soils, transplanting and inoculating soil mixes
- Inoculates root and water uptake and aids in minimizing effects of plant stress

**Soluble Root Zone Enhancer**

- NEW professional grade and ultra-concentrated microbial inoculant with 16 species of mycorrhizal fungi, 2 species of Photorhizos and 10 species of bacteria
- NOW contains more than 3x the total microorganisms of our previous formulation and features highly effective mycorrhizal species to encourage rapid germination and colonization of target plant roots
- Easy to use granular composition for preparing garden soils, transplanting and inoculating soil mixes
- Enhances root, shoot and plant development for increased vigor, growth and yields
- The most diverse and effective biological product available that is approved for use in organic crop production

**Soluble Root Growth Enhancer**

- A soluble all purpose combination of 11 species of mycorrhizal fungi and humic acids that dissolves in water for soil applied, irrigation, fertigation and transplant applications (can pass 70 mesh screen)
- Ideal solution for established plants, containers, propagation, sprouts, seeds, bare root, turf and landscape
- Increases root growth and development, improves nutrient and water uptake and aids in minimizing effects of plant stress

**Ultra-Concentrated Soluble Root Zone**

- NEW professional grade and ultra-concentrated microbial inoculant with 16 species of mycorrhizal fungi, 2 species of Photorhizos and 10 species of bacteria
- NOW contains more than 3x the total microorganisms of our previous formulation and features highly effective mycorrhizal species to encourage rapid germination and colonization of target plant roots
- Easy to use in water for soil applied, irrigation, fertigation and transplant applications (can pass 70 mesh screen)
- Ideal solution for established plants, containers, propagation, sprouts, seeds, bare root, turf and landscape
- Enhances root, shoot and plant development for increased vigor, growth and yields

**Ultra-Concentrated Soluble Fertilizers**

- NEW professional grade, water soluble, organic nitrogen fertilizer derived from non-GMO vegetable proteins. Does not contain any animal proteins!
- Ideal for supplementing plant nitrogen needs or correcting deficiencies in all types of plants. Blend with other soluble powders or liquids as needed
- Fast acting, user friendly and effective as a fertilizer spray in soil applications. Chlorine free and safe around plants, pets and pigs
- Pleasing savory odor makes it great for use in greenhouses and other enclosed areas

**Fish Powder 12-1-1**

- Premium quality solution grade high nitrogen fertilizer for promotion of rapid plant growth or correction of nitrogen deficiencies
- Enzymatically hydrolyzed and spray dried fish protein concentrate provides a valuable and plant-available source of organic nitrogen, amino acids and minerals
- More concentrated and economical than liquid fish fertilizers
- Combine with seaweed powder, biological inoculants or other soluble nutrients as part of a comprehensive fertility program

Our Liquid Fertilizer Line is Bigger & Better

Liquid All Purpose 4-1-3
Designed to promote increased shoot, flower, fruit and root development in all types of plants. Ideal for use throughout the growing season in foliar and soil applied solutions, this easy to use concentrated liquid formula provides the primary nutrients needed for vigorous growth, abundant fruits and a plentiful harvest.

#13413 - 1 qt.
#23413 - 1 gal.
#33413 - 2.5 gal.
#50413 - 5 gal.
Nutrients derived from:
Fish Protein Hydrolysate,
Soy Protein Hydrolysate,
Lysine, Potassium Sulfate,
Kelp Extract (Ascophyllum nodosum).

Liquid Bloom 2-6-4
Designed to promote enhanced bud, flower, fruit and root development in all types of plants including flowers, fruits, herbs, ornamentals and vegetables. This easy to use concentrated liquid formula provides primary and secondary nutrients needed for beautiful blooms while sustaining overall plant growth.

#13264 - 1 qt.
#23264 - 1 gal.
#33264 - 2.5 gal.
#50264 - 5 gal.
Nutrients derived from:
Fish Protein Hydrolysate,
Bone Meal, Langbeinite,
Lysine, Molasses, Soy Protein Hydrolysate, Potassium Sulfate, Kelp Extract (Ascophyllum nodosum) and Phosphoric Acid (for pH stabilization).

Liquid Calcium 5.0%
Calcium is essential for regulation of nutrient uptake, formation and development of cell wall membranes and translocation of proteins and sugars throughout plant tissue. Calcium deficiency can result in poor root development, yellowing of new plant tissue and fruit and vegetable abnormalities.

#13050 - 1 qt.
#23050 - 1 gal.
#33050 - 2.5 gal.
#50050 - 5 gal.
Nutrients derived from:
Calcium Chloride

Liquid MicroNutrient 2-0-1
Our micronutrient blend provides five plant essential micronutrients (Boron, Copper, Iron, Manganese and Zinc) plus an additional boost of Nitrogen and Potassium in an easy to use concentrate. Formulated with unique organic compounds that allow the chelated nutrients to remain in plant available form until needed.

#13222 - 1 qt.
#23222 - 1 gal.
#33222 - 2.5 gal.
#50222 - 5 gal.
Nutrients derived from:
Sodium Nitrate, Potassium Sulfate, Sodium Borate, Copper Sulfate, Ferrous Sulfate, Manganese Sulfate and Zinc Sulfate.

Liquid Fish & Kelp 2-4-1
An all-purpose natural-based liquid fertilizer made from pure hydrolyzed fish protein and a concentrated extract of cold water Ascophyllum nodosum seaweed. It is ideal for enhancing plant development and promoting longer growing periods for all garden vegetables, herbs, fruits, vines and ornamentals. Liquid Fish & Kelp provides three plant macronutrients and stimulates soil biological activity.

#13241 - 1 qt.
#23241 - 1 gal.
#33241 - 2.5 gal.
Nutrients derived from:
Fish Protein Hydrolysate,
Kelp Extract (Ascophyllum nodosum), Potassium Sulfate and Sodium Nitrate.

Liquid Bone Meal 0-12-0
A readily available source of Phosphorus and Calcium, our Liquid Bone Meal is a convenient liquid concentrate that encourages increased flower, fruit, and seed production. Derived from micronized and stabilized bone meal, it contains slow and fast reacting forms of phosphorus.

#23012 - 1 gal.
#33012 - 2.5 gal.
#55012 - 5 gal.
Nutrients derived from:
Bone Meal and Phosphoric Acid (for pH stabilization)
